

Ch 2: Sectors of the Indian Economy

Question Bank | 2M | 3M | 5M

SECTION A - 2 MARKS

Q1. What are economic activities? Give two examples.

Q2. Define the primary sector. Give two examples.

Q3. Define the secondary sector. (*PYQ 2021*)

Q4. Define the tertiary sector. (*PYQ 2022*)

Q5. Why is dairy considered a primary activity? Give one reason.

Q6. Give one example each to show how sugarcane passes through all three sectors.

Q7. What is GDP? Who measures GDP in India?

**Q8. Why are only final goods and services counted in GDP?
What problem does this avoid?**

Q9. What is disguised unemployment? Give one example. (*PYQ SQP 2021-22*)

Q10. What is underemployment? How does it differ from unemployment?

Q11. What is seasonal unemployment? Give one example from the primary sector.

Q12. What is the organised sector? Give two examples. (PYQ SQP 2021-22)

Q13. What is the unorganised sector? Give two examples.

Q14. What is the public sector? Give two examples.

Q15. What is the private sector? Give two examples.

Q16. Differentiate between public sector and private sector with one example each. (PYQ 2024)

Q17. What is MGNREGA? In which year was it passed? What does it guarantee? (PYQ SQP 2021-22)

Q18. If the government cannot provide 100 days of employment under MGNREGA, what is it required to do?

Q19. Name the three sectors of the Indian economy. (PYQ 2023)

Q20. Which sector contributes the most to India's GDP currently?

Q21. Which sector provides employment to the largest proportion of workers in India?

Q22. What was the share of the primary sector in India's GDP in the 1950s? What is it now?

Q23. Why are the activities of the three sectors described as interdependent? Give one example.

Q24. What are intermediate goods? Why are they excluded from GDP calculation?

Q25. Name one example of an activity in the organised sector and one in the unorganised sector from the same field.

Q26. What are the two advantages of working in the organised sector over the unorganised sector?

Q27. Why does the government take up certain activities in the public sector? Give two reasons.

Q28. Give one example each of a cooperative sector and a joint sector enterprise in India.

Q29. Why has employment in the service sector not increased to the same extent as production? Give one reason.

Q30. A large proportion of labourers in India work in the unorganised sector. Name any two problems they face.

Q31. What percentage of India's workforce works in the unorganised sector?

Q32. Which of the following is an example of the organised sector — a daily wage labourer working for a contractor, or an engineer receiving all employment benefits? (PYQ SQP 2021-22)

SECTION B - 3 MARKS

- Q1. Explain the difference between public sector and private sector with three examples each. (PYQ 2024)**
- Q2. Explain the changing importance of the three sectors in India's GDP since independence. (PYQ 2023)**
- Q3. Distinguish between organised and unorganised sectors. Give two examples of each. (PYQ — *most repeated*)**
- Q4. Explain three advantages of working in the organised sector. (PYQ 2011)**
- Q5. Agriculture is an activity of the unorganised sector in India. Justify with three examples. (PYQ 2012)**
- Q6. How would income and employment increase if farmers were provided irrigation and marketing facilities? Explain three points. (PYQ)**
- Q7. Explain three ways in which employment can be increased in rural areas. (PYQ 2012, 2011)**
- Q8. Explain three ways in which employment can be increased in urban areas.**
- Q9. What is disguised unemployment? How is it different from open unemployment? Give examples. (PYQ SQP 2021-22)**

Q10. Why is the primary sector still the largest employer in India despite its declining share in GDP? Explain three reasons.

Q11. Explain the concept of GDP. Why are only final goods counted in GDP? Give an example to show how double counting is avoided.

Q12. Explain three reasons why the government takes up activities in the public sector.

Q13. Describe any three features of the unorganised sector and the problems faced by workers in it.

Q14. Explain how the tertiary sector has become the most important sector in India's economy over time. Give three reasons.

Q15. Explain three ways in which the primary sector depends on the tertiary sector. Give examples.

Q16. Explain three reasons for the rise of the service sector in India after the 1990s.

Q17. Describe any three objectives of MGNREGA. How has it helped rural workers? (*PYQ — frequently asked*)

Q18. What are the three bases on which sectors of the economy are classified? Explain each briefly.

Q19. Explain the concept of underemployment. Give three examples from Indian agriculture.

Q20. Explain three differences between the organised and unorganised sectors regarding job security, wages, and working hours.

Q21. How does the secondary sector add value to primary sector products? Explain with three examples.

Q22. Explain three ways in which the government can protect workers in the unorganised sector.

Q23. Explain why it is important for the government to invest in the public sector even when it does not earn profits. Give three reasons.

Q24. Describe three activities that belong to the tertiary sector. Why is this sector also called the service sector?

Q25. Explain the role of the public sector in India's infrastructure development. Give three examples.

Q26. How has the pattern of employment in India changed since independence? Explain across all three sectors.

Q27. Explain how disguised unemployment in agriculture can be reduced through creating employment in the secondary and tertiary sectors.

Q28. "The service sector in India employs many different kinds of people." Explain with three examples covering high and low-skilled workers.

Q29. Explain three reasons why a large proportion of India's workforce is still employed in agriculture despite low productivity.

Q30. What is the importance of the tertiary sector for the primary and secondary sectors? Explain three specific dependencies.

Q31. Explain three differences between the public sector and the private sector in terms of ownership, objective, and examples.

Q32. How has globalisation and liberalisation after 1991 contributed to the growth of the tertiary sector in India? Explain three points.

Q33. Explain three challenges faced by workers in the unorganised sector in India and suggest two measures to improve their condition.

Q34. What are the limitations of GDP as a measure of a country's development? Explain three points.

Q35. Why should the government invest in education, health, and public infrastructure even when private sector can provide them? Explain three reasons.

Q36. Explain the role of MGNREGA in reducing rural unemployment and poverty. What are its limitations? (PYQ)

Q37. Explain how IT and technology-based services have transformed the tertiary sector in India since the 1990s.

Q38. Explain why employment in the service sector has not grown as fast as its share in GDP. Give three reasons.

Q39. How does the construction of dams and canals lead to employment generation in rural India? Explain three links.

Q40. Explain the concept of seasonal unemployment with three examples from the primary sector. How can it be reduced?

Q41. Describe three measures the government has taken to protect workers in the unorganised sector.

Q42. Explain how diversification of agriculture into horticulture, pisciculture, and animal rearing can reduce disguised unemployment.

SECTION C - 5 MARKS

Q1. Compare the employment conditions in the organised and unorganised sectors. (PYQ 2024)

Q2. Analyse the changing importance of the three sectors in the Indian economy since independence. (PYQ 2023 — *Most Important*)

Q3. Explain with examples how the three sectors of the economy are interdependent. (PYQ)

Q4. What is GDP? How is it calculated? Why are only final goods counted? Explain with an example avoiding double counting. (PYQ)

Q5. Explain the concept of disguised unemployment and underemployment with examples. How can the problem be solved? (PYQ SQP 2021-22)

Q6. Explain the role of the public sector in India's economic development. Give five examples of public sector activities and explain why the government takes them up. (PYQ)

Q7. Distinguish between the organised and unorganised sectors across five parameters — registration, job security, wages, working hours, and social security benefits. Give examples.

Q8. Explain how employment can be increased in rural areas. Suggest five specific measures with examples. (PYQ 2012)

Q9. Explain the objectives, functioning, and achievements of MGNREGA. What are its limitations? (PYQ — frequently repeated)

Q10. "The tertiary sector has emerged as the largest sector in terms of GDP contribution in India." Analyse why this has happened. Explain the reasons and give five examples of growing service sector activities.

Q11. Explain the growth of the three sectors of the Indian economy since independence. Why has employment in agriculture not declined despite its falling share in GDP?

Q12. Classify all economic activities on three different bases — nature of activity, ownership, and employment conditions — with two examples of each category.

Q13. Explain the problems faced by workers in the unorganised sector. What steps can the government take to protect them? Give five specific measures. (PYQ 2012)

Q14. "In India, the primary sector still employs the most workers even though its share in GDP has fallen sharply." Analyse this statement and explain its causes and consequences.

Q15. How can disguised unemployment in agriculture be transferred to productive employment in the secondary and tertiary sectors? Explain five measures.

Q16. Explain the importance of the public sector in providing essential services. Give five examples where private sector involvement alone would be inadequate.

Q17. Describe the changing pattern of economic development in India across all three sectors from the 1950s to the present day using data on GDP contribution and employment.

Q18. Compare the private sector and the public sector in India across five points. Give examples and explain why both are necessary for India's economy.

Q19. Explain five ways in which the government can generate employment in both rural and urban areas of India.

Q20. "Economic activities are the backbone of a nation's development." Explain this with reference to all three sectors of the Indian economy and their contribution to GDP and employment.

Q21. Explain the concept of underemployment and disguised unemployment in India. How does it differ from open unemployment? What are its consequences for the economy?

Q22. How has the service sector in India grown after liberalisation in 1991? What types of new services have emerged? Give five examples covering IT, healthcare, education, transport, and finance.

Q23. Describe the role of irrigation and better marketing in transforming the agricultural sector and generating more employment in rural India. Give five specific examples.

Q24. "Both organised and unorganised sectors are necessary for India's economy." Do you agree? Justify with five points covering employment, GDP contribution, and challenges.

Q25. Explain how the activities of the primary, secondary, and tertiary sectors are interdependent using the example of cotton cultivation, cotton textile manufacturing, and the services required at each stage.

Q26. What is meant by sectors of the economy? Describe all sectors classified on the basis of nature of activity, ownership, and working conditions. Give two examples of each.
